

Better Returns For B-of-A's Depositors

Increased returns for savings depositors at Bank of America was disclosed this week with the bank's announcement that beginning April 1st interest would be paid on a daily basis at the rate of three per cent per annum.

In addition, the bank will extend its grace period for deposits to include the first ten days of each month, in contrast to the first ten days of each quarter, it was announced.

"This new program of interest payments on savings accounts means that depositors will receive interest for each day their money is on deposit and that any money deposited by the tenth of each month will earn interest from the first of the month," Bank of America President S. Clark Belse pointed out.

"All interest will be compounded quarterly," Belse said.

This represents the first change made in interest payments on savings accounts since December 31, 1956 when Bank of America raised its rate from 2 per cent to 3 per cent compounded semi-annually.

Bureau Requests Taxpayers to File Returns

Today's big tip from Uncle Sam is . . .

If you have an income tax refund coming and you have not yet filed your 1960 return, do it NOW!

The NOW part of the tip results from the fact that US Internal Revenue Service needs your unfiled returns to keep the refund pipeline filled up.

"We're about 2 1/2 million refunds and a third of a billion dollars ahead of our pace at this time last year," IRS said. "That means we're getting the refunds into the processing mill as soon as the returns come in."

"If we are to maintain our present refund pace, we need a lot more returns than are being filed now as a result of the usual mid-March lull in filing."

So, says IRS, file now. And it adds this advice to those who don't want to delay their refunds unnecessarily: (1) Be sure you print your name and address legibly; (2) attach the required W-1 forms; (3) check your arithmetic; and (4) sign your return correctly.

Steady Increase Shown at Hospital

South Bay Hospital showed a steady increase in activity during February over previous months, it is indicated by a statistical report from the hospital.

An average of 65.4 patients were in the hospital each day of the month, compared to 62.7 during January, which was the highest average-patient-day figure the Redondo Beach hospital has shown since opening in August.

Eighty-four babies were born during the month, compared to 66 for the month before. Emergency center treatments were 277 during February and 288 during January.

Second BBG Group Slated

Holly Park B'nai B'rith Women No. 975, are happy to announce that they are sponsoring a second group of BBG. The co-advisors of the new group are Mrs. Barry Gerson of Torrance and Mrs. Rubin Kuritsky of Inglewood.

The young girls are planning to meet at Temple Beth Torah in Gardena on the first and third Monday of each month. Miss Florine Weiner, president of the group, states that any young girl interested in joining is advised to contact Mrs. Rubin Kuritsky at PL 4-2051.

The first group of BBG's is co-advised by Mrs. Leonard King and Mrs. Al Rudolph both of Inglewood.

PROGRESS
Copper tube for sanitary drainage lines first introduced to the home market on a large scale six years ago, is now permitted in over 500 of the major U.S. building areas, Anaconda home specialists report.
